17 JAN 1986

Ms. Susan Shekmar  
Committee on Appropriations  
Subcommittee on Defense, Staff  
United States Senate  
Washington, D.C. 20510

Dear Susan,

The purpose of this letter is to advise you of the Agency's intention to begin negotiations immediately to lease approximately [ ] usable square feet of office space at [ ] located in Fairfax, Virginia. This leased space will house certain portions of the Directorate of Science and Technology (DS&T) including Foreign Broadcast Information Service (FBIS), Office of Development and Engineering (OD&E), and possibly the Office of Research and Development (ORD). These components presently reside in external buildings which, for a variety of reasons, the Agency does not plan to retain beyond 1988. Primarily these buildings have serious physical and technical security deficiencies, as well as high maintenance and operating costs. Due to space limitations, these DS&T components cannot be accommodated on the Headquarters Compound. [ ]

25X1  
25X1

25X1

25X1

This space in Reston is particularly crucial to FBIS which has negotiated a [ ] six-year contract to automate their headquarters and field bureau operations. To avoid unnecessary and costly construction of three separate computer centers, it is essential to collocate FBIS components which are now in three separate buildings. Site preparation for automation facilities must begin immediately in order to receive computer equipment scheduled for delivery in calendar year 1986 as provided in the contract. [ ]

25X1

25X1

A major portion of the [ ] is presently leased to a large corporation. If the Agency acts quickly, we now have a window of opportunity to take over this entire lease and occupy space which has been renovated to meet many of the Agency's technical security requirements. We must make a commitment by 21 January 1986. [ ]

25X1

25X1

The total cost of this move will amount to [ ] in fiscal years 1986 and 87. These costs will be accommodated within available resources, including offsets in the FBIS modernization program. The 1986 requirements are as follows:

25X1

25X1

(Dollars in Millions)

Operations and Maintenance

- Lease Costs
- Building Modifications
- Less: FBIS Modernization Funds

Procurement

- Communications
- Security Systems
- Shielded Enclosure

Total

This is a unique and timely opportunity to consolidate various portions of the DS&T resulting in an ultimate cost avoidance and increased efficiency for the Agency.

We are prepared to provide you with any additional information you may require.

Sincerely,

Daniel A. Childs, Jr.  
Comptroller
